

MISSA Tier 3 Leukemia Cup Regatta

May 20, 2017

RACE RESULTS

We had 137 sailors forming 32 teams. A team consists of 4 sailors, with some teams allowed alternates or substitutes. This is why, when you divide 137 by four you would end up with 34 1/4 teams.

The team of four is split into an A boat and a B boat.

The racing consists of 2 - 3 races of "A" and then a "rotation" into different sailboats each rotation to "B" continuing on until time runs out. The finishes of the A and B boat are averaged together to result in the score for that team in the regatta.

The rotations are a challenge depending on weather and waves, which was the case on Saturday. This reduced the number of races we were able to pull off.

I mention the above for those not familiar with High School or College racing.

The top 6 teams in the regatta were:

- 1) Grosse Pointe North - Pendragon
- 2) Grosse Pointe North - Norseman
- 3) Black River - Saint Francis
- 4) Grosse Pointe South - White
- 5) Grosse Pointe South - Gold
- 6) Brother Rice - Warriors Black
